## IMPORTANT

Please check that your photos meet the standards before you lodge your application. Many clients have their photos taken too far from the camera – your head should take up between 32mm and 36mm of the photo so you may need to stand closer to the camera. Your application will be returned unprocessed if the photos are not acceptable and this will delay the processing and involve added expense. The notes on the application form give examples that we do not accept.
